1.1   Oracle Java Support Roadmap

JDK 9 will reach its end of life (and end of public support) in March 2018. Support roadmap is as below:

Oracle Java SE Support Roadmap*†				
Release	GA Date	Premier Support Until	Extended Support Until	Sustaining Support
6	December 2006	December 2015	December 2018	Indefinite
7	July 2011	July 2019	July 2022*****	Indefinite
8**	March 2014	March 2022	March 2025	Indefinite
9 (non-LTS)	September 2017	March 2018	Not Available	Indefinite
10 (non-LTS)	March 2018	September 2018	Not Available	Indefinite
11 (LTS)	September 2018	September 2023	September 2026	Indefinite
12 (non-LTS)	March 2019	September 2019	Not Available	Indefinite
13 (non-LTS)	September 2019***	March 2020	Not Available	Indefinite

1.2   Novelvox Product Installation approach:

Basis the change, Novelvox product installation will be done by either of below approach

a)   Novelvox team will distribute open JDK & software media to be installed on the servers.

Or

b)   Customer will provide the Java configuration, preinstalled on the servers, in which case, Novelvox will not be responsible for Java configuration and setup.

2.0 Adobe Flash Player End of Life Announcement

Reference:

Adobe EOL Announcement: https://theblog.adobe.com/adobe-flash-update/

Chrome: Flash Roadmap - The Chromium Projects

Firefox: https://blog.mozilla.org/futurereleases/2017/07/25/firefox-roadmap-flash-end-life/ and Plugin Roadmap for Firefox - Plugins | MDN

Microsoft Browser: https://support.microsoft.com/en-in/help/4520411/adobe-flash-end-of-support

Basis the changes, Novelvox will also upgrade its product features to make it flash free. Going ahead, the Novelvox Gadget Designer, running on web browsers and flash player will run on HTML-5 and will be available for release by mid of 2020.
